

CHILOÉ PENGUINS & LOCAL CULTURE

Length: Full day

The most complete experience in the north part of Chiloé with a complete itinerary that integrates natural history and cultural heritage. We will be exploring the north section of this island of myths and unique biodiversity and will visit the reproductive colony of the Humboldt and the Magellanic Penguin in Puñihuil. Following the pages of the diary of Charles Darwin we will have close encounters with the wildlife and great opportunities of interaction with the local communities that will share with us their ancient traditions that struggle to survive from the modernity in what it was described as the last corner of civilization of Southamerica.
